7.3.1 Institutional Distinctiveness

The campus of our institute has lush green surroundings which has a spread over a land piece of 12 acres. Apart from having pollution free area, it has beautiful infrastructural developments in its covered area which describes its distinctiveness. DPG Degree College is providing multidisciplinary education in the field of Science, Commerce and Humanities. With the development in its infrastructure such as: latest labs for computer sciences, laboratories for Science departments, classrooms and hostels with all facilities, Reception Desk, and well-furnished waiting areas, this institute is continuously making an effort to provide a comfortable stay within the campus.

DPG Degree College has a huge campus and 70% of its area is lush green. It is very rare that you find such a green campus in the urban areas like Gurugram. The conservation of green area is very necessary in this era of industrialization. Also, Pollution is a very serious concern in the NCR region due to heavy traffic, deforestation and urbanization. Our main focus behind this Green campus program is to ensure the sustainability of sufficient resources for our future generation. But the main challenge is the proper translation of the education for sustainable development into practice so that it can be more effective. Any new development should consider and maintain the proper balance of economic, social and environmental conditions. More stress is being given on the proper infrastructure development so as to continue and maintain the green practices. Green environment conservation refers to the protection and preservation of natural ecosystems and resources, as well as the reduction of human impact on the environment. This includes efforts to reduce pollution, conserve water

and energy, protect wildlife, and promote sustainable practices in industry, agriculture, and transportation.

Combination of learning and curiosity of actions from the institution from years provide good actions for the betterment of the students. We are passionate about making a positive impact on them. There are various visions which make our institution distinctive than the others. Externally, we are driven to deliver our mission and convinced of the transformative power of education and research to them for their betterment. The college is committed to quality and excellence in all its activities-teaching, research, training and extension. We aim to deliver an exceptional education and to make significant contributions to the society-locally, nationally and internationally. Institution consistently inspires students and provides a platform for methodological skill development, multidisciplinary scheme development, and ethical and human value development. Focus of the institution was always on the following vision, mission and working methodology to assure the standard of the communities performance through value added education.

DPG Degree College has a set of high values and standards for the improvement of student's lifestyle and culture. The college envisions empowering students through academic excellence. The college has various missions which includes striving to create a better society by empowering them. Our mission guides and empowers the students. Inflate the quality of life, developed environment, justifiable living, human values and quality of education, which are all included under our project. Mainly, to improve the quality of life, different expansion activities including health, literacy, moral and ethical progress were introduced under one umbrella.(ANNEXURE 7.3.1B1,B2,B3)

The DPG Degree College has implemented various policies and initiatives to promote a green campus, energy efficiency, and environmental sustainability. The college recognizes the importance of its natural surroundings and aims to protect and conserve ecological systems and resources within the campus. The key objectives of the policy include:

1. Protecting and conserving ecological systems and resources within the campus.
2. Ensuring the judicious use of environmental resources to meet the needs of present and future generations.
3. Integrating environmental concerns into policies, plans, and programs for social development and outreach activities.
4. Raising awareness among stakeholders and the local community to adopt environmental good practices and reduce adverse effects on the environment.
5. Contributing to climate protection, adaptation to climate change, and conservation of global resources.
6. Improving the efficient use of resources, including energy and water, and reducing consumption and waste production.
7. Creating a plastic-free campus.
8. Conducting environmental and energy audits periodically.
9. Minimizing paper use through e-governance policies.

The policy covers several focus areas and initiatives:

1. Clean Campus Initiatives:

Principal
D.P.G. Degree College
Sector-34, Gurugram

- Organizing regular cleanliness drives and awareness campaigns on cleanliness and hygiene.
- Involving the NSS and Green Society volunteers in activities related to Swachh Bharat Abhiyan.
- Encouraging staff members to participate in cleanliness drives.
- Organizing events, competitions, and rallies to create mass awareness about cleanliness.
- Removing waste materials and broken furniture from the campus.
- Administering annual pledges by students and staff members to maintain cleanliness.

2. Landscaping Initiatives:

- Organizing annual tree plantation drives.
- Encouraging student societies to hold tree planting events.
- Maintaining the campus landscape to provide clean and cool air, relaxation, and aesthetic appreciation.
- Preserving biodiversity and creating a habitat for various species.

3. Clean Air Initiatives:

- Promoting the use of public transportation and carpooling.
- Restricting the entry of automobiles inside the campus.
- Strictly prohibiting smoking and tobacco use on campus.

4. Infrastructural Initiatives:

- Installing solar power plants for clean energy generation.
- Using energy-efficient equipment and LED lighting.

- Practicing rainwater harvesting for water conservation.

5. Waste Management Processes:

- Mitigating and managing solid waste through the 3Rs (Reduce, Reuse, Recycle).
- Collaborating with scrap dealers for recycling paper waste.
- Reducing paper usage through digitization and e-books.
- Organizing workshops on solid waste management.
- Implementing leak-proof fixtures, water-saving measures, and e-waste management practices.

6. Awareness Initiatives:

- Conducting awareness campaigns, seminars, workshops, conferences, and interactive sessions.
- Encouraging student societies and departments to organize events and activities related to environmental conservation.

7. Green Audit and Energy Audit:

- Conducting regular audits to assess the college's sustainability practices and identify areas for improvement.
- Implementing changes and savings based on audit findings.

8. Plastic-Free Campus:

- Strictly banning the use of single-use plastics on campus.

These policies and initiatives aim to foster a culture of sustainability, educate students and staff, and create a positive impact on the environment. By integrating environmental concerns into its operations, DPG Degree College is striving to become a role model for sustainable practices in education institutions

SUMMARY OF PROGRAM

As we all know that whole world is facing global warming. To overcome this problem the concept of go green initiative has valuable role. One day plantation drive was organised by Department of Botany and Life Sciences in the Botanical Garden of DPG, Degree college on March 21, 2024. The event was inaugurated by Hon'ble vice chairman Mr. Deepak Gahlot. It was attended by college staff and 120 students.

The objective of the event was to encourage the students to control global warming and make them understand the way we interact with environment and we handover the environment to future generation.

This was a great initiative to make environment pollution free. By plantation drive we can aware the students and society about the important aspect of environment.

The event was started at 9:30am. The teachers and students were asked to reach at 9:30 am at Botanical Garden of DPG, Degree College. The event was started by planting sapling in the botanical garden by vice chairman sir along with students.

The main purpose of the event to enhance awareness about environmental issues like global warming, to beautify the campus.

Deepak Gahlot
